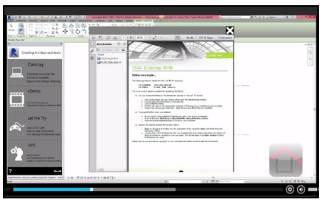
THE LARGEST INDUSTRY LIBRARY ON THE MOST ADVANCED LEARNING PLATFORM

The Most Advanced Learning Platform

Global eTraining is the world leader in learning technology, and we're always raising the bar.

GAME-CHANGING NEW FEATURES



Software Plug-in

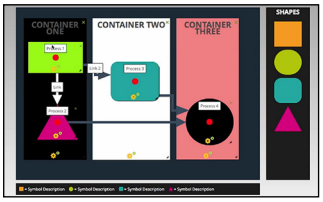
GeT know-how, accessible right inside the software program, right at your fingertips. Available for AutoCAD and Revit.

The Generator 2.0

New features in The Generator make building and customizing your own courses even simpler and slicker.

AutoTranslate (Beta)

As a user of The Generator, build your course in multiple languages and set the industry terminology yourself. So whether you are learning in English, Spanish, French or any of our 18 supported languages, we have you covered.



The Workflow Workbook

The Workflow Workbook allows you to reorganize and combine GeT modules across software topics. With your company-specific processes and GeT know-how, learners connect to the right training at the right time to match your project-specific workflows.

With other educational technology companies, the personalized approach of traditional classrooms is lost. Global eTraining leverages advanced technology to make the learning experience more personal.

- **Searchability**
  Access the right information immediately with advanced search across text, audio and video.
- **Instructor & Technical Help Desk Support**
  Send an instant ticket to our certified instructor help desk for real-time assistance.
- **Anywhere, Anytime, Any Device**
  Access your quick-loading, HTML5 courses on any device, 24/7.
- **Offline Mobile Access**
  Access GeT on the go, online or offline. We're redefining accessibility.
- **Personalized Learning**
  Learn the way you learn best-whatever your learning style - visual, auditory, read/write or kinaesthetic. Follow a custom learning plan, based on your skills assessment results.
- **GeT Ready GeT Set Go! Implementation and Adoption Programs**
  Our customer success team will support your eTraining implementation and provide recommendations to continuously drive learner adoption.
- **BIG Data Reporting**
  Set your ROI parameters and track your team's training activity and skills application to real-world projects.
